Multiple-choice exams, while widely used, are necessarily imprecise due to the contribution of the final student score due to guessing. This past year at the United States Naval Academy the construction and grading scheme for the department-wide general chemistry multiple-choice exams were revised with the goal of decreasing the contribution of the score due to guessing.

Multiple-Choice Exams and Guessing: Results from a One ...

Perhaps, but I think I'm just a slow test-taker in general. I usually did 2-3 letter grades better than the class average for our other chem exams, buuuuutt I don't think that's the case for this final. As I said, I know my chemistry, but I guess I just don't have it down enough to where I can finish an exam like that within the time frame.
