O'Hagan, Minako. 2012. 'From fan translation to crowdsourcing: consequences of Web 2.0 user empowerment in audiovisual translation.' In Aline Rемаel, Pilar Orero and Mary Carroll (eds). Audiovisual Translation and Media Accessibility at the Crossroads (pp. 25-41). Amsterdam: Rodopi. Google Scholar

Audiovisual Translation in a Global Context | SpringerLink

We could define audiovisual translation as the translation activity that takes place in a context characterized by the interaction of oral or written text with sound and image. It is intended to be consumed through a screen. This includes both translation for dubbing, subtitling, and audio description.

Audiovisual translation has an individual nature and presents its own issues. While, like any translation, it is a question of transferring the original message into another language as faithfully as possible, there are some significant differences to take into account. First of all, the source text is usually composed of oral dialogue or monologue
