IF function - Office Support

Sometimes, as you're working in an Excel 2013 spreadsheet, it's awkward or lengthy to write a formula to perform a calculation. For example, suppose you want to sum the values in cells A1 through A10. To express that as a formula, you'd have to write each cell reference individually, like this: =A1+A2+A3+A4+A5+A6+A7+A8+A9+A10

What Are Functions in Excel 2013? - dummies

Click the Formulas tab on the Ribbon, then select the Insert Function command. The Insert Function dialog box will appear. Type a few keywords describing the calculation you want the function to perform, then click Go. In our example, we'll type Count cells, but you can also search by selecting a category from the drop-down list.
