assessment probes in physical, life, Earth, and space science. The introductory chapter of the book provides an overview of what formative assessment is and how it is used. Matter and energy probes in this book, along with suggested grade levels and related concepts, include the following: • "Ice Cubes in a Bag" (grades 3-12): con-

Student Ideas - static.nsta.org

The purpose of this assessment probe is to elicit students' ideas about the properties of atoms. The probe is designed to determine whether students can distinguish between the micro- scopic properties of an atom and the macro- scopic properties of a substance or object made up of atoms. Related Concepts.

Physical Science and Nature of Science Assessment Probes

Physical Science Assessment Probes Freezing Mia and Devon are having a summer party. They need to make two sizes of ice. The large blocks of ice will be put in a cooler to keep the cans of soda cold. The small ice cubes will keep the sodas in the glasses cold. They wondered how the temperature at which ice freezes is affected by size.
