Ages & Stages: Helping
Children Develop Logic
& Reasoning Skills

Threes and fours base their understanding of the world on what they see, rather than on logic. Preschoolers have difficulty focusing on more than their own singular perception of things. Number concepts can be difficult for threes and

ASVAB involve figuring out how old someone is, was, or will be. You generally do solve them by comparing their ages to the ages of other people.

Sometimes you can solve an age problem by using a one-variable solution, and sometimes it takes several variables.
