Psychologists' testing codes have changed

Background. PSYCHOLOGICAL tests aren't magic, so let's get that clear right at the beginning. They assess and evaluate information that you give to the examiner, which is why the formal name of psychological testing is psychological assessment. You give this information either in the form of answers to interview questions or as answers on paper—or on a computer—to specific questions.

Psychological Testing | Psychological Assessment

Material was prepared for use as an aid in handling requests for psychological testing. The minutes allocated for each test include administration, scoring and write up. Determination of the medical necessity of psychological tests always requires consideration of the clinical facts of the specific case to assure that tests
