Social and personality development is best understood as the continuous interaction between these social, biological, and representational aspects of psychological development. Relationships. This interaction can be observed in the development of the earliest relationships between infants and their parents in the first year.

Social and Personality Development in Childhood | Noba

Finally, (6) for Shaffer, personality and social development stop at the end of adolescence. There is very little on the concept of identity consolidation and life beyond 18 years old. The result is a book with a flawed design, and it is not really from a human development perspective, other than the three chapters I noted above.
